

## INFORMATION

### *About knowledgeatwork*

knowledgeatwork specializes in creating and marketing white papers.

From its offices in Berlin, the company has been operating throughout Europe in the field of producing and marketing high-quality white papers. Under the leadership of the company's founder, Dr Sybe Izaak Rispens, the team consists of recognised and dedicated European experts in their respective fields as journalists, academics, designers and communication professionals. They cover a broad spectrum in the field of research and technology and have many years' experience in scientific studies and research activities, which is reflected in the precision of their white papers.

The portfolio of knowledgeatwork encompasses everything related to the creation of white papers: from the idea which leads to its conception, specialized translations in different languages, the creation of infographics, design and print production to marketing of a completed white paper.

Previous clients of the company include international customers from industries, research groups of renowned universities and German and Dutch public organizations.
